

## SNF Metrics will help you

Improve quality and fiscal performance by making data-driven decisions.

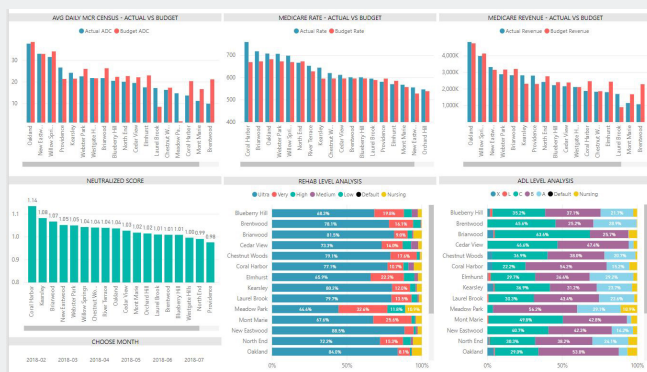

Increase efficiency and reduce risk by providing tools to improve processes and track results.

Operate your facilities, and your business, better with actionable intelligence, consolidating data from the multiple systems you use every day

## The SNF Metrics Solution

### *The SNF Metrics Platform has two components:*

An intelligent dashboard that offers near real-time access to the data you need to take smart, decisive action. All your information from all your systems, all in one place.

Integrated apps that simplify processes, solve problems, and fill gaps throughout your organization.

## SNF Metrics Dashboard

Information and analytics, blended from your different systems: EHR/Clinical, billing, financial, risk, payroll, marketing and more. Make faster, data-driven decisions based on a deeper understanding of what is happening in your organization.

**Start using data in smart ways:**

-  Birdseye, cross-facility views – see your whole company FAST
-  Detailed, deep-dive reports that would otherwise be difficult, or impossible, to create
-  Analytics that answer the questions you face every day
-  Trend everything, compare anything
-  Never wait for “putting reports together”

## SNF Metrics Apps

Our unique set of apps streamline and provide accountability for many different parts of your operation. Plus, new solutions are constantly being developed based on direct customer feedback.

-  Simple solutions, designed specifically for long-term care.
-  Easy to learn, easy to use.
-  All apps in one place with no duplicate data entry.
-  Turnkey processes so nothing falls through the cracks.

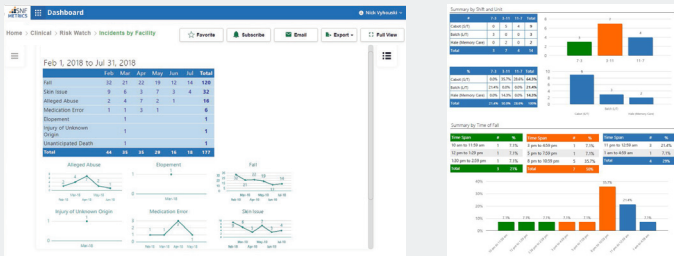

## Problems Solved

SNF Metrics helps you be a better operator, a better VP of Clinical, a better CFO, a better administrator. You can get a clear view of what's happening in a dozen facilities in the time it takes most people to understand one. If you've ever said, "I wish I could clone myself ..." Well, we can't do that, but we can make it seem like you have.

With SNF Metrics you have the information, the tools and the time to make the right decisions for your organization; the clarity you need to improve facility performance; the insight for an administrator to focus on her biggest problem.

## The Dashboard: Key Benefits

By combining information from various systems, SNF Metrics transforms data into the knowledge necessary to make decisions for improved quality of care, compliance, and fiscal health.

- Reports and analytics for all areas of your operation
- Keep on top of five-star ratings, PBJ, QAPI, staffing, and reimbursement changes (PDPM)
- High-level views with drill-down capabilities to the resident level
- Dynamic charts and graphs create a narrative of each of your facilities and the overall company
- Integration of data from multiple sources
- Analytics to assist with root-cause analysis and better data interpretation
- Predictive modeling for five-star rating, staffing level, high-risk clinical areas, and financial performance
- Trend reports showing current and historical performance
- Customized email alerts

## The Apps: Key Benefits

**Referral calculator:**  
Quick assessment of resident cost during admission

**Grievance tracker:**  
Tracking system for grievances & facility follow up

**Rehab authorization:**  
Facilitate and monitor communication between therapy and facility case management

**Managed care contract database:**  
Online repository of contracts with integration throughout the platform

**Budgeting tool:**  
Measure actual performance against budgetary goals across the organization

**Integrated forms:**  
Collect information that doesn't exist in any system, tailored to your organization

**Referral tracking system (coming soon):**  
Monitor, track, and trend all facility referrals

**Risk reporter (coming soon):**  
Incident tracking and reporting that works
